EXPERIENCE

meez

3 yrs 5 mos

Senior Product Designer

Dec 2025 – present • 7 mos

- Led end-to-end design of enterprise features while restructuring meez's information architecture across navigation systems, search + filter, and cross-feature workflows, creating a more cohesive operational system for professional kitchens.
- Led the design system refactor, leveraging Claude Code to audit the codebase and identify fragmented theme file organization. Owned project strategy to reconcile broken references and implement a reusable token and component library.
- Conducted user research, platform audits, and competitive analysis to identify product opportunities, define requirements, write development tickets, and support roadmap planning across multiple product areas.
- Designed and launched enterprise capabilities including Inventory Management, Menu Engineering, Analytics, pricing and packaging experiences, role-based access controls, and operational workflow improvements supporting restaurant groups.
- Partnered with engineering and product teams to refactor sprint processes and accelerate release cadence from monthly to weekly—a 5x improvement—by strategically sequencing development efforts, coordinating feature timing, and communicating fluently across technical and product domains.

Lead Product Designer

Dec 2023 - Dec 2025 • 2 yrs 4 mos

Product Designer

Feb – Dec 2023 • 11 mos

Digital Designer

Freelance
