Experience

Product Design Consultant

Garden Grove Nissan

Jun 2026 – Present • 3 mos

- Built an AI-assisted discovery workflow that connected Google Analytics engagement data, Meta campaign performance, CRM sales outcomes and website UX audit findings to produce prioritized redesign requirements.
- Spearheaded the redesign of a car dealership's digital retail website, defining its information architecture and responsive shopping journeys to increase qualified lead submissions by 18%.

Senior Product Designer

meez

Feb 2023 – Jun 2026 • 3 yrs 5 mos

- Owned end-to-end product design function in a fast-moving B2B SaaS environment, translating open-ended user problems into requirements, user flows, polished interfaces and shipped features through close collaboration with Product and Engineering.
- Established the product's inaugural design system by leading a wide audit of the codebase and coordinating a sequenced refactor to upgrade MUI versions and remove deprecated styling code. Designed and implemented a semantic token system and a component library that was compatible with MCP agents.
- Conducted deep user research to identify growth opportunities and user retention strategy. Created agentic skills to aggregate quantitative user data and synthesize findings to drive design discovery.
- Designed and shipped an AI-assisted recipe creation tool that converted files into structured content, balancing automation with warnings, correction paths and user review for nondeterministic output.

Digital Designer

Freelance

Jan 2022 – Feb 2023 • 1 yr 2 mos

- Led visual design execution for client brand and web relaunches, building marketing site pages in HTML, CSS and JavaScript and creating logo graphics and launch-ready assets across digital and print channels.
