

EXPERIENCE

Senior Product Designer

meez

Feb 2023 – Jun 2026 • 3 yrs 5 mos

- Fully autonomous, end-to-end designer. Owned the entire design function with no design director: research, IA, interaction, visual, and design QA. Initiated and led major features from zero, including Inventory, which opened meez to a new enterprise segment.
- Technical product designer inside the codebase. Audited a legacy React / MUI codebase and built the design system from scratch, consolidating 243 hardcoded colors into 38 semantic design tokens across 231 files.
- Measurable impact via intelligent AI usage. Cut support tickets 38% with a self-serve costing redesign and lifted filter interaction 22%. Used Claude Code to prototype, audit code, and pressure-test logic, and designed AI-native features with human-in-the-loop review.
- Enterprise complexity made decision-ready. Designed analytics and data visualization, role-based permissions, and multi-org workflows that connect dense operational data to a clear next action.

(Previous: Lead Product Designer, Product Designer)

Digital Designer

Freelance

Jan 2022 – Feb 2023 • 1 yr 2 mos

Led visual design execution for client brand and web relaunches, building marketing site pages in HTML, CSS and JavaScript and creating logo graphics and launch-ready assets across digital and print channels. Moved beyond static design into how pages behaved, structuring layouts, states and interactions.

Showrunner's Assistant

Netflix

Apr – Nov 2021 • 8 mos

Worked closely with the showrunner and episodic directors to design storyboards and concept art used to build shotlists and oneliners. Reviewed scripts across the season for narrative continuity, tracking how each scene, setup, and payoff connected across episodes.

EDUCATION & CERTIFICATIONS

UC, Santa Barbara – B.A., Film & Media Studies, English

General Assembly – HTML, CSS and Web Design Circuit

Google – UX Design Certificate

Fullstory – Fundamental Product Certification

SKILLS

Functional Prototyping, AI-Assisted Design, User Research, Design Systems, Responsive Web Design
